What is a Co-op?

The overall goal of a cooperative is to create organizations that serve the needs of the people who use them. They are member-owned, member-governed businesses that operate for the benefit of their members, rather than primarily to maximize profits. When you join it, you own it! Co-ops provide goods and services in a way that keeps community resources in the community. Members pool resources to bring about economic results that are unobtainable by one person alone.

International Cooperative Alliance values and principles:

Voluntary & Open Membership
Democratic Member Control
Member Economic Participation
Autonomy & Independence
Education, Training & Information
Concern for Community
Cooperation Among Cooperatives
